

CIC bioGUNE – Vicomtech Joint Workshop

09.30 WELCOME BY JM MATO

11.30 COFFEE-BREAK

09.35. JM MATO

General Presentation of CIC bioGUNE

VICOMTECH PRESENTATIONS

CIC bioGUNE PRESENTATIONS

09.40 J.FLOREZ /C.PALOC

General Presentation of Vicomtech
Biomedical Applications Dpt

12.00 N.ABRESZIA.

"Hybridizing X-ray crystallography and
Electron Microscopy techniques"

09.45 G. MACLAIR / I. MACIA

"Introduction to Medical Image Analysis
/Applications of Vessel Analysis"

12.30 M.VALLE

"Molecular motors in action by cryo-
electron microscopy"

10.15 F. BOTO / P. LESKOWSKY

"Introduction to Biological Image Analysis /
Application in 2D electrophoresis Gel Analysis"

13.00 A.MARTÍNEZ DE LA CRUZ

"X-ray crystallography as a tool to unravel
molecular mechanisms"

10.45 I. BARANDIARAN / L. KABONGO

"Scientific Visualization for biomedical
sciences/Applications using 3D animation and
Volume Rendering"

13.30 DISCUSSION

11.15 DISCUSSION

13.45. END
